Profile & Summary

HSE professional with **over fifteen years of continuous experience since 2008** in industrial loss prevention, and in the management of Health, Safety, and Environmental systems across major construction projects, commissioning phases, start-up activities, and the operation of large industrial facilities and power plants. Demonstrates strong capability in implementing safety strategies, managing risk, and ensuring compliance with regulatory and international standards.
Currently serving as an **HSE Coordinator**, effectively leading safety programs, coordinating cross-functional teams, and promoting a proactive safety culture throughout all project stages. Recognized for technical excellence, adaptability, teamwork, and innovative problem-solving, with a strong commitment to ongoing professional development and progressing toward chartered status as an HSE practitioner.

Skills

- **Compliance Management**: Knowledge of relevant safety regulations, standards, and legal requirements.
- **Risk Assessment:** Identifying potential hazards and implementing corrective measures.
- **Incident Investigation:** Investigating workplace incidents to determine causes and prevent future occurrences.
- **ISO 14001 and ISO 45001:** Knowledge of these international standards for environmental management and occupational health and safety.
- **Emergency Response:** Preparing for and responding to workplace emergencies.
- **Hazard Recognition:** Identifying potential workplace hazards and assessing their severity, Proactively addressing risks to prevent accidents.
- **Safety Training:** Conducting comprehensive safety training for employees, Equipping them with knowledge about safety protocols and emergency procedures.
- **Environmental Management:** Implementing and overseeing environmental policies and procedures.
- **Waste Management:** Managing hazardous and non-hazardous waste disposal.
- **Auditing Techniques:** Conducting regular safety audits to evaluate adherence to safety policies and procedures, Identifying areas for improvement and implementing corrective measures.
- **MSDS Management:** Managing Material Safety Data Sheets for chemical products used in the workplace.
- **Industrial Hygiene:** Knowledge of workplace health hazards (such as chemical exposure, noise, and ventilation).
- **Ergonomics:** Applying ergonomic principles to optimize workspaces and prevent musculoskeletal injuries.
- **Beyond The Safety Professional:** leadership skills, adaptability, and critical thinking. Effective problem-solving, teamwork, and time management contribute to overall success.
- **Psychological Safety:** creating atmosphere where employees feel psychologically safe to report hazards.
- **Communication Skills**
- **Mental Health Awareness:**

Work History

HSE SR. Coordinator
12/2019 to 03/2026.

Dar Al-Mimar Co. (DMC) – New Cairo – Egypt
Project: Mountain View I-City New Cairo
Website Link: DMC-CURVE | LinkedIn

Worked as an HSE Coordinator on one of DMC flagship residential and commercial development projects, ensuring full compliance with safety standards across construction, infrastructure, and finishing activities. Also provided HSE support to additional DMC projects as required.

Key Responsibilities:

- Assisted in conducting compliance reviews and general risk assessments to support the project's HSE management system.
- Maintained accurate HSE logs, inspection records, and all required documentation.
- Supported compliance with applicable laws, regulations, and company HSE standards.
- Prepared and submitted necessary HSE reports, performance summaries, and incident documentation.
- Provided assistance and professional advice on HSE matters, offering recommendations to facility and project management.
- Contributed to achieving **10,000,000 safe working hours without a Lost Time Injury (LTI)** through effective coordination, monitoring, and implementation of safety controls.

HSE Coordinator
08/2018 – 12/2019

CCC & Hassan Allam Sons (JV) – New Cairo – Egypt
Project **:** MIVIDA MIXED-USE BOULEVARD
Website Link: Hassan Allam Holding | LinkedIn & Consolidated Contractors Company | LinkedIn

Worked as an HSE Coordinator on one of Hassan Allam & CCC (JV)'s major mixed-use development projects, ensuring full compliance with safety standards across construction, infrastructure, and finishing activities.

Key Responsibilities:

- Assisted in conducting compliance reviews and general risk assessments to support the project's HSE management system.
- Maintained accurate HSE logs, inspection records, and all required documentation.
- Supported compliance with applicable laws, regulations, and company HSE standards.
- Prepared necessary HSE reports, performance summaries, and incident documentation.
- Provided assistance and professional advice on HSE matters, offering recommendations to facility and project management.
- Contributed to achieving **1,000,000 safe working hours without a Lost Time Injury (LTI)** through effective coordination and monitoring.

HSE Supervisor
08/2012 - 05/2013

Suez Steel company – Suez City –Egypt
Project: Suez steel A new phase of the factory.
Suez Steel Company | LinkedIn

The Suez Steel Plant includes several industrial structures with heights comparable to high-rise buildings due to their mechanical and operational functions:

Key Responsibilities:
- Contributed to the HSE management system across a large-scale industrial project featuring high-rise-equivalent structures, including the 80–110 m DRI Tower (comparable to a 30-floor building), 50–70 m furnace chimneys, 35–45 m steel melting trusses, 25–40 m storage silos, and 20–25 m rolling mill buildings.
- Managed the full **Permit to Work (PTW)** system, including issuing, reviewing, and closing permits for hot work, work at height, confined spaces, lifting operations, and electrical isolation.
- Assisted in compliance reviews, general risk assessments, and safety assessments to support overall Health, Safety, and Environmental performance.
- Maintained accurate HSE logs, records, and documentation in alignment with company and regulatory requirements.
- Supported compliance with applicable laws, regulations, and internal HSE standards.
- Prepared and submitted HSE reports, findings, and performance summaries to management.
- Provided professional advice and recommendations on HSE matters to enhance facility safety and operational integrity.

HSE Officer
01/2011 - 08/2012

Kharafi National – Damietta City –Egypt
Project: - Damietta Power Plant Project (500 MW) &
- West Damietta Power Plant Project (500 MW).
Kharafi National | LinkedIn
Worked as an HSE Officer across two major power-plant projects involving high-rise-equivalent structures such as chimneys, boiler buildings, turbine halls, elevated steel structures, and heavy-equipment erection zones.

Key Responsibilities:
- Acted as a safety consultant and supervised all project activities while monitoring the performance of contractors and subcontractors to ensure compliance with HSE standards.

- Managed the full **Permit to Work (PTW)** system, including issuing, reviewing, and closing permits for hot work, work at height, confined spaces, lifting operations, and electrical isolation.
- Conducted pre-activity coordination meetings and toolbox talks with subcontractors before initiating any construction or high-risk activity.
- Served as a **Competent Heavy Equipment Inspector**, ensuring safe operation and certification of cranes, forklifts, man-lifts, and lifting gear.
- Served as a **Competent Scaffolding Inspector**, overseeing scaffold erection, tagging, load capacity, and compliance with international standards.
- Prepared detailed **Activity Risk Analyses (ARA)** and ensured that all control measures were implemented prior to work execution.
- Monitored high-elevation work zones, including chimney works, HRSG platforms, turbine hall elevations, and lifting operations involving tall structures.
- Ensure strict compliance with national regulations, project HSE plans, and international safety standards.
- Maintained accurate HSE documentation, inspection logs, and incident reports.
- Supported emergency response planning and conducted safety briefings for high-risk operations.

HSE Supervisor
01/2010 - 01/2011

Arab Contracting Co (ARCONS)– Alexandria City –Egypt
Project: Now Abo Qir thermal Power Plant Project (Units 6&7) (CP 102)
ARCONS | LinkedIn
Worked as an HSE Supervisor on a major thermal power plant expansion project involving high-rise-equivalent structures such as boiler units, chimneys, turbine buildings, and heavy-equipment erection areas.

Key Responsibilities:

- Acted as a safety consultant and supervised all project activities while monitoring the performance of contractors and subcontractors to ensure compliance with HSE standards.
- Managed the full **Permit to Work (PTW)** system, including issuing, reviewing, and closing permits for hot work, work at height, confined spaces, lifting operations, and electrical isolation.
- Conducted pre-activity coordination meetings and toolbox talks with subcontractors before initiating any construction or high-risk activity.
- Served as a **Competent Heavy Equipment Inspector**, ensuring safe operation and certification of cranes, forklifts, man-lifts, and lifting gear.
- Served as a **Competent Scaffolding Inspector**, overseeing scaffold erection, tagging, load capacity, and compliance with international standards.
- Prepared detailed **Activity Risk Analyses (ARA)** and ensured that all control measures were implemented prior to work execution.
- Monitored high-elevation work zones, including chimney works, HRSG platforms, turbine hall elevations, and lifting operations involving tall structures.
- Ensure strict compliance with national regulations, project HSE plans, and international safety standards.
- Maintained accurate HSE documentation, inspection logs, and incident reports.
- Supported emergency response planning and conducted safety briefings for high-risk operations.

HSE Supervisor
09/2008 - 01/2010

ORASCOM CONSTRUCTION INDUSTRIES – New Cairo City –Egypt
Project: - BNP.PARIBAS BANK Project in New Cairo &
- Housing & Development Bank Project in New Cairo
Orascom Construction PLC | LinkedIn
Worked as an HSE Supervisor on two major commercial banking construction projects in New Cairo, including high-standard administrative buildings, technical rooms, data centers, and multi-floor office structures.

Key Responsibilities:

- Acted as a safety consultant and supervised all project activities while monitoring the performance of contractors and subcontractors to ensure compliance with HSE standards.
- Managed the full **Permit to Work (PTW)** system, including issuing, reviewing, and closing permits for hot work, work at height, confined spaces, lifting operations, and electrical isolation.
- Conducted pre-activity coordination meetings and toolbox talks with subcontractors before initiating any construction or high-risk activity.
- Served as a **Competent Heavy Equipment Inspector**, ensuring safe operation and certification of cranes, forklifts, man-lifts, and lifting gear.
- Served as a **Competent Scaffolding Inspector**, overseeing scaffold erection, tagging, load capacity, and compliance with international standards.
- Prepared detailed **Activity Risk Analyses (ARA)** and ensured that all control measures were implemented prior to work execution.
- Monitored high-elevation work zones, including chimney works, HRSG platforms, turbine hall elevations, and lifting operations involving tall structures.
- Ensure strict compliance with national regulations, project HSE plans, and international safety standards.
- Maintained accurate HSE documentation, inspection logs, and incident reports.
- Supported emergency response planning and conducted safety briefings for high-risk operations.

HSE Officer
01-2007 – 09/2008

Arab Contracting Co (ARCONS)
Project: - Saint Gobain Glass Fact AIN El SOKHNA Project &
- EL-KUREIMAT Power Station III (CP105) - BENI SUEF City
ARCONS | LinkedIn

Worked as an HSE Officer across two major industrial and power plant project involving high-elevation structures such as chimneys, boiler buildings, furnace structures, elevated steel platforms, and heavy-equipment erection zones.

Key Responsibilities:

- Supervised all HSE activities during civil, structural, mechanical, and finishing works across both projects.
- Monitored contractor and subcontractor compliance with HSE procedures and project safety standards.
- Managed the Permit to Work (PTW) system for hot work, work at height, confined spaces, lifting operations, and electrical isolation.
- Conducted toolbox talks and pre-activity safety briefings before starting any construction or high-risk activity.
- Competent inspector for heavy equipment and scaffolding, ensuring compliance with international safety requirements.
- Prepared detailed Activity Risk Analyses (ARA) and verified implementation of all control measures.
- Monitored high-elevation work zones including chimneys, boiler structures, furnace buildings, and elevated steel platforms.
- Maintained HSE logs, inspection reports, and incident documentation for both projects.

Education

AZHAR Diploma
2006

Scientific section

Now studying at the College of Agriculture, and you will get a bachelor's degree in 2027

Courses & Certificates

- International General Certificate in Occupational Health and Safety. (**NEBOSH - IGC**)
- Environmental Management System **ISO** 14001:2004.
- Safety and Health Training Course in: **OSHA** Construction Industry Safety & Health (29 CFR 1910).
- Safety and Health Training Course in: **OSHA** General Industry Safety & Health (29 CFR 1910).
- Basic Live support & **First Aid** in Egyptian Red Crescent.
- Industrial Safety – **HAZMAT** training course from HUMANSOFT LEARNING SOLUTIONS center, Kharafi National Kuwait.
- Industrial Safety - **Hazard Communication** training course from HUMANSOFT LEARNING SOLUTIONS center, Kharafi National Kuwait.
- Industrial Safety - **Scaffolding** training course from HUMANSOFT LEARNING SOLUTIONS center, Kharafi National Kuwait.
- Industrial Safety - **Electrical Safety** training course from HUMANSOFT LEARNING SOLUTIONS center, Kharafi National Kuwait.
- Industrial Safety - **Fire Safety in the Workplace** training course from HUMANSOFT LEARNING SOLUTIONS center, Kharafi National Kuwait.
- Industrial Safety - **Confined Spaces Entry** training course from HUMANSOFT LEARNING SOLUTIONS center, Kharafi National Kuwait.
- Training on **Psychological support** during and after crises in Egyptian Red Crescent.
- Risk Management
- Occupational Safety and Health Advanced Diploma (**IASP**)
